

VORTEILE

- Progressiv aufgebaute, thermisch verklebte Polyesterfaser
- Robust

| | |
|---|--|
| Anwendung | Verhindert das Ansammeln von Staub und Schmutz an Heiz- und Kühlelementen innerhalb von Belüftungssystemen |
| Rahmen | Metall |
| Medium | Synthetik |
| Max Temperatur (°C) | 70°C |
| Relative Luftfeuchtigkeit (max.) | 100% |

| Typ | Filterklasse | ISO16890 | Abmessungen BxHxT (mm) | Volumenstrom/Druckdifferenz (m ³ /h/Pa) | Filterfläche (m ²) | Frachtgewicht (kg) |
|----------|--------------|------------|------------------------|--|--------------------------------|--------------------|
